## CLOSED PATELLA KNEE BRACE W/SILICONE PAD & LATERAL FLEXIBLE REINFORCEMENTS

### Characteristics:

Developed using three-dimensional knitted fabric, providing greater transversal elasticity at the same time as it exerts the necessary compression in each area, this new knitted fabric concept provides better hold on the skin and stability during movement, and does not require any fastening system, incorporates a visco-elastic cushion in ring form which manages the kneecap control, with blockage, in an upper and lower lateral sense. Incorporates lateral stabilisers on both sides which prevent it rolling up and give a greater medio-lateral control.

### Indications:

- Irritation (tendomyopathy, first phase ligamentosis, mild arthrosis, post-traumatic and postoperative arthritis).
- Sensation of instability (patellar and/or medio-lateral).

### Colours:

- 8104: ■ Beige.
- 9104: ■ Black.
